

**L-PRO 4500**  
**Firmware v1.0**  
**Release Description**

**FEATURE ENHANCEMENTS**

- Initial release for general availability.

**CORRECTIONS TO ISSUES**

- None

**COMPATIBILITY:**

L-PRO 4000 Offliner Settings Software:	v2.7 or above
Relay Control Panel Software:	v2.8 or above
RecordBase View Software:	v4.2 or above
RecordGraph Software:	v5.2 or above
ERL 61850 IED Configurator:	v2.1 or above
ICD File Version:	v3.0 Rev 1

Minor releases, designated with a letter suffix (e.g. v3.1a), maintain the same compatibility as the base version (e.g. v3.1=v3.1a).

## CLASSIFICATION OF CHANGES MADE

The issues fixed in software / firmware upgrades are classified as defined below. While the decision to upgrade installed products is the user's, these classifications provide a guideline for the need and priority of the upgrade.

**Critical:** Critical changes fix issues/problems that prevent the basic operation of the device and have no workaround. Critical changes merit a product upgrade as soon as possible, if that function is being used under the conditions causing the issue

**Major:** Major changes fix problems that prevent the basic operation of the device but do have a workaround. Any major changes merit a product upgrade as soon as possible if the function is being used under the conditions causing the issue and a workaround is not acceptable.

**Minor:** Minor changes fix non vital issues that do not prevent the basic operation of the device and may or may not have a workaround. Product upgrades for such changes are not necessary unless they apply to and are needed by the user.

**Feature Enhancement:** Feature enhancements add a capability or extend existing capabilities of the product. Upgrades for such changes need be made only if and when that feature enhancement is desired.
