

T-PRO 4000

Offliner v1.4

Release Description

FEATURE ENHANCEMENTS

- Added support for T-PRO 4500

CORRECTIONS TO ISSUES

- **Minor:** Fixed issue where some settings were incorrectly scaled when switching between 1A and 5A CT setting.
- **Minor:** Fixed issue where 87N Neutral Differential does not display the correct IO min value.
- **Minor:** Corrected the 67N pickup and the 50BF pickup delay values for setting in the default setting file for T-PRO 4000.

COMPATIBILITY

T-PRO 8700 Firmware Versions	v5.0 and earlier
T-PRO 4000 Firmware Versions	v1.2 and earlier
T-PRO 4500 Firmware Versions	v1.0
T-PRO 8700 Setting File Versions	1 – 11
T-PRO 4000 Setting File Versions	401-403
T-PRO 4500 Setting File Versions	601
Microsoft Windows	Windows 7 Professional Windows 10 Professional

Minor releases, designated with a letter suffix (e.g. v3.1a), maintain the same compatibility as the base version (e.g. v3.1=v3.1a).

CLASSIFICATION OF CHANGES MADE

The issues fixed in software / firmware upgrades are classified as defined below. While the decision to upgrade installed products is the user's, these classifications provide a guideline for the need and priority of the upgrade.

Critical: Critical changes fix issues/problems that prevent the basic operation of the device and have no workaround. Critical changes merit a product upgrade as soon as possible, if that function is being used under the conditions causing the issue

Major: Major changes fix problems that prevent the basic operation of the device but do have a workaround. Any major changes merit a product upgrade as soon as possible if the function is being used under the conditions causing the issue and a workaround is not acceptable.

Minor: Minor changes fix non vital issues that do not prevent the basic operation of the device and may or may not have a workaround. Product upgrades for such changes are not necessary unless they apply to and are needed by the user.

Feature Enhancement: Feature enhancements add a capability or extend existing capabilities of the product. Upgrades for such changes need be made only if and when that feature enhancement is desired.
